

**Powder Team Meeting 2013**

Once again this year, the Rio Tinto Metal Powders Sales & Marketing, Operations, R&D, Credit

and Logistics Teams gathered together at our headquarters in Sorel-Tracy for our annual Powder Team Meeting.

This event, which took place between January 29<sup>th</sup>-31<sup>st</sup>, is designed to ensure that globally, the organisation is well aligned to meet our customers' needs and to deliver on our key business performance indices.

Based on the quality of the presentations made, as well as the ideas and best practices that were exchanged, we are confident that we will be able to further enhance our service offered to our customers.

In the end our goal of achieving the best possible global service for our powder customers was enhanced.

**PM-13 Conference & Exhibition in Pune, India – February 7-9, 2013**

Rio Tinto was one of the sponsors of the International conference of Powder Metallurgy PM13 which was held at the Hyatt Regency, Pune, India from the 7<sup>th</sup> to 9<sup>th</sup> of February.

Mr. Greg Lavallée, RTMP General Manager, gave an inaugural speech on the Metal Powder World Market and Rio Tinto long term vision for the powder business.

Rio Tinto exhibited an attractive booth with all of the information about the process and products posted on it along with a prominent display of our tag line "From Ore to Powder to meet your Requirements".

It was a great opportunity for our staff to meet our key PM parts manufacturers at our booth.

Two presentations were made by RTMP employees. The first one by the principal Scientist, Mr. Francois Chagnon: Factors Affecting Properties of Sintered Hardening Materials and the second by Technical Representative Europe, Philippe Francois: Understanding of Crack Formation during Induction Hardening of PM parts. Other Rio Tinto Metal Powders staff attendees were Prakash, Deepak & Rajeev.
